Ninja Battle Run

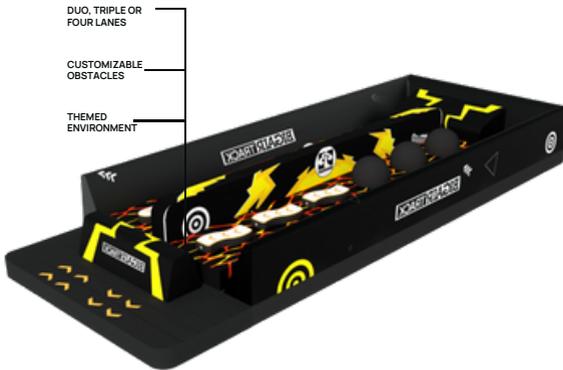

The BigAirBag® Ninja Battle Run The Complete Obstacle Course

BigAirBags Ninja Battle Run brings high-energy obstacle racing straight into your trampoline park. Built for ultimate creativity, the course features a wide range of interchangeable obstacles that can easily be modified to suit your audience. Fast-paced, competitive, and visually appealing, it instantly becomes a standout attraction.

This flexible obstacle run leads to repeat visits, appeals to a wide range of skill levels, encourages friendly competition, and it differentiates from the “standard” park equipment.

Choose your set-up

Technical Highlights

- ✔ **Double-Wall Fabric:** The high-quality DWF ensures excellent absorption, reliable safety performance, and long-lasting durability, even during intensive daily use.
- ✔ **Plug-and-play setup:** Fully inflatable setup without requiring permanent installation. Ready for use in a matter of minutes
- ✔ **Weather Resistance:** The Ninja Battle Run is fit to be used both inside and outside.
- ✔ **High Throughput:** Delivers value for both users and operators, through fast-paced laps.

Endless inflatable fun.

The course features a range of pre-designed obstacles that securely attach to the track. If you have a specific obstacle in mind, our team can help you design and build it to match your vision.

Three lanes for the ultimate racing experience, adding an extra dimension of fun for all ages.
